SUMMARY

Aspiring and motivated Full Stack Developer with over 2.5 years of professional experience in developing ERP systems for the retail industry. Skilled in building web-based ERP solutions and mobile barcode scanning interfaces (HHT). Passionate about designing efficient, user-friendly interfaces and solving real-world business problems with clean, scalable code. Proficient in front-end and back-end development using HTML, CSS, JavaScript, React.js, Node.js, and Express.js. Seeking a challenging software development role where I can apply my skills, contribute to impactful projects and grow as a full stack development.

Experience

SOFTWARE ENGINEER

Tenth Planet Technologies Pvt Ltd. | Chennai, TamilNadu | Jan 2023 - Jun 2025

- As a Software Engineer at Tenth planet technologies, I worked primarily on the enhancement and development of Adempiere ERP software.
- Actively contributed to the complete development of ERP Version 2.0, transitioning from traditional systems to fully web-based architecture.
- Designed and developed responsive UIs to improve user workflows. Integrated RESTful APIs for seamless communication between front-end and back-end modules.
- Developed the HHT (Hand Held Terminal) a web-based mobile interface used for scanning product barcodes to fetch product details from the database.
- Built using HTML, CSS, JavaScript, React js, Node.js, Express.js and REST APIs. Integrated middleware for capturing scanned product codes to retrieve data.
- Designed and optimized complex SQL queries to create, insert, update and join data efficiently. Created database scripts to resolve production and bug issues.
- Supported major retail processes like Inter-Branch Transfer (IBT), Stock Transfer, Returns, GRN Entry, Stock Take, Inventory In & Out through the interface.

Technical Skills

- **Frontend Technologies:** HTML, CSS, Javascript, JQuery and React js.
 - **Backend Technologies:** Node js, Express js, EJS and REST APIs.
 - **Database:** PostgreSQL.
 - **Tools:** GIT, Linux (Ubuntu), VS Code and Postman.
-

Education

Bachelor of Computer Application

University of Madras, Chennai, Tamilnadu | Graduated: 2022 CGPA - 8.08 |
First class with distinction.

Projects

Web Applications (QR Code Generator, Keeper App, To-Do List)

- Developed **multiple responsive web applications** focusing on usability and real-time interaction.
 - **QR Code Generator:** Built a tool to instantly generate QR codes from user inputs with responsive design across devices.
 - **Keeper App:** Created a React-based note-taking app inspired by Google Keep, with features for adding, editing, and deleting notes.
 - **To-Do List App:** Implemented a dynamic task management tool for adding and deleting tasks with a minimal UI.
 - Tech Stack: **React.js, JavaScript, HTML, CSS.**
 - **Live Links:** [QR Code Generator](#) | [Keeper App](#) | [To-Do List](#).
-

Course

- The Complete Web development Bootcamp.
- Business English and Personality Development (2022).
